

EdgeSmart™

Overview

Access Card

EdgeSmart™ is designed to efficiently deliver services to personnel, members, attendees or customers on either specialized function smart cards or stored value payment cards. Flexible, user defined parameters provide for extensive program options. Multiple programs maintained on the same card present opportunities for valuable linked services and effective co-branding.

Secure • Value • Service

Card features provide:

- repeat user / new user counters
- support for multiple classes / clearances / privileges
- cards are active from issue date
- optional cardholder PIN provides additional security
- cards can have a usage counter limit
- prepaid, usage based or unlimited access
- cards can be 'Hot Listed' and / or 'Disabled'
- card retains last 10 uses; device retains all use activity
- each use occasion date stamped

Card may also contain e-purses, and programs for associated services and incentives.

Multi-lingual, *EdgeSmart™* supports all major card types and a variety of device platforms (including RF technology). No on-site processor. Off-line data collection option. Remote download capability.

ID and access management for data, systems, facilities, controlled functions, clubs and resorts just got easier with *EdgeSmart™* **Access Card**.

EdgeTech® ... Transforming Technology into *Solutions*.
