## Overview

### *e-purse*

*e-purse* delivers a safe stored value payment capability on a specialized function card. Flexible, user defined parameters provide for extensive program options. Multiple applications added to the same card present opportunities for exciting and valuable linked services and effective co-branding.

Card features provide:

- repeat use / new use counters
- load value from a variety of sources
- supports multiple purses and multiple currencies
- secure, reusable and reloadable
- transfer value between purses
- active from first use
- optional cardholder PIN provides additional security
- cards can be 'Hot Listed' and / or 'Disabled'
- expiry date option
- card retains last 10 transactions; merchant device retains all transactions
- all transactions date stamped

Multi-lingual, *e-purse* supports all major card types and a variety of device platforms (including vending machines and RF technology). No on-site processor. Merchant reporting available. Off-line data collection option. Remote download capability.

Friendly, flexible partner management software allows you to activate multiple additional value programs per card for associated vendors, services and incentives.

Faster transactions, no change, reduced fraud, customer convenience — customer retention and attracting new clients just got easier with *EdgeSmart™ e-purse*.
